

Half Ton Package Inventory

This is a white 2005 Chevy Astro Van that I have only put a gel roll shelf unit into in order to keep the load space variable to accommodate the many ways differing equipment gets loaded. I carry one rock n roll cart standard and many times load a bigger cart to get the package on wheels and into your location.

Please see the load below and if you need a piece of equipment on your shoot and don't see it listed below, please let me know and I will accommodate.
