

Crossfit HQ

2013 new studio build - GLO spec'd the construction and installed 82 dimming Kino daylight tubes - laser lined and leveled. High speed, daylight balanced indoors? Yep.

2013's most uncomfortable ride

looks cool and it works - except for the time travel part. Try sitting in it and you will wish for a different place and time. Welcome to 2014.

See the Light

the location 9 light - 3 20amp edison plugs - all the muscle - without the generator.

GLO

"Lighting Shows"

Small or medium or large - My job is to make you, and your talent, look good. No matter what. With Parabeams, Imaras and lens-less HMI's.

See it at www.andyolson.com

Thanks for a great 2013 - Here's to a crazy good 2014 !
